RAGHU ENGINEERING COLLEGE (Autonomous)

(Approved by AICTE, New Delhi & Permanently Affiliated to JNTUGV, Vizianagaram) NBA and NAAC 'A+' grade accredited Institute.

Dakamarri, Bheemili Mandal, Visakhapatnam – 531162,A.P. Phone: 08922-248001

INSTITUTE VISION

"Envisioning to be a world class technical institution by synergizing quality education with ethical values"

INSTITUTE MISSION

- To encourage training and research in cutting-edge technologies.
- To develop and strengthen strategic links with the industry.
- To kindle the zeal among the students and promote their quest for academic excellence.
- To encourage extra-curricular activities along with good communication skills.

QUALITY POLICY

"RAGHU Engineering College underscores ethical values along with innovative teaching through an interactive, activity-based pedagogy; establishes the best of infrastructural facilities, inculcates engineering temper among the students through the use of the latest Information and Communication Technologies, and strives for an efficient, responsive and transparent administration in all areas"

DEPARTMENT OF ELECTRICAL AND ELECTRONICS ENGINEERING

VISION

"To produce Electrical and Electronics Engineers through quality education with exposure to state of art technology and innovation with ethical values"

MISSION

- M1 : Empowering students and professionals with state-of-art knowledge and Technological skills.
- M2 : To prepare students for higher studies and entrepreneurship.
- M3 : To impart essential skills of leadership, teamwork, communication and ethics among the students.

PROGRAMME EDUCATIONAL OBJECTIVES (PEOs)

- **PEO 1:**
  Domain Knowledge:
  Graduates will have knowledge in basic science, mathematical tools and fundamental engineering stream with contemporary problem solving, critical analysis in Electrical and Electronics Engineering and its allied areas.

- **PEO 2:**
  Communication Skills & Employability:
  Graduates will have careers in the diversified sectors of electrical power industry, software industries and also encouraged for higher education and research.

- **PEO 3:**
  Life Long Learning & Social Concern:
  Graduates will be able to communicate effectively, adopt lifelong learning act with integrity and have inter personal skills needed to engage in, lead and nurture diverse teams with commitment to their ethical and social responsibilities.

MAPPING OF MISSION STATEMENTS WITH PEOs

MS/PEO	PEO 1	PEO 2	PEO 3
M1	3	3	2
M2	2	2	3
M3	2	3	2

1-Slight, **2**- Moderate, **3**- Substantial

PROGRAMME OUTCOMES

Graduates of Electrical and Electronics Engineering Will:

PO 1	**Engineering knowledge :** Apply the knowledge of mathematics, science, engineering fundamentals, and an engineering specialization to the solution of complex engineering problems.
PO 2	**Problem analysis:** Identify, formulate, review research literature, and analyze complex engineering problems reaching substantiated conclusions using first principles of mathematics, natural sciences, and engineering sciences.
PO 3	**Design/development of solutions:** Design solutions for complex engineering problems and design system components or processes that meet the specified needs with appropriate consideration for the public health and safety, and the cultural, societal, and environmental considerations.
PO 4	**Conduct investigations of complex problems:** Use research-based knowledge and research methods including design of experiments, analysis and interpretation of data, and synthesis of the information to provide valid conclusions.
PO 5	**Modern tool usage**: Create, select, and apply appropriate techniques, resources, and modern engineering and IT tools including prediction and modelling to complex engineering activities with an understanding of the limitations.

PO 6	**The engineer and society:** Apply reasoning informed by the contextual knowledge to assess societal, health, safety, legal and cultural issues and the consequent responsibilities relevant to the professional engineering practice.
PO 7	**Environment and sustainability:** Understand the impact of the professional engineering solutions in societal and environmental contexts, and demonstrate the knowledge of, and need for sustainable development.
PO 8	**Ethics:** Apply ethical principles and commit to professional ethics and responsibilities and norms of the engineering practice.
PO 9	**Individual and team work:** Function effectively as an individual, and as a member or leader in diverse teams, and in multidisciplinary settings.
PO 10	**Communication:** Communicate effectively on complex engineering activities with the engineering community and with society at large, such as, being able to comprehend and write effective reports and design documentation, make effective presentations, and give and receive clear instructions.
PO 11	**Project management and finance:** Demonstrate knowledge and understanding of the engineering and management principles and apply these to one's own work, as a member and leader in a team, to manage projects and in multidisciplinary environments.
PO 12	**Life-long learning**: Recognize the need for, and have the preparation and ability to engage in independent and life-long learning in the broadest context of technological change.

PROGRAMME SPECIFIC OUTCOMES (PSOs)

PSO 1: On successful completion of the B. Tech. (EEE) Program, the graduates will be able to apply technical knowledge and usage of modern hardware & software tools related to Electrical and Electronics Engineering for solving real world problems.

PSO 2: On successful completion of the B. Tech. (EEE) Program, the graduates will be able to analyse, comprehend, design & develop Electrical subsystems/systems for a variety of engineering applications and thus demonstrating professional ethics and concern for societal wellbeing.

MAPPING OF PEOS WITH POS AND PSOS:

PEO/POs	PO-1	PO-2	PO-3	PO-4	PO-5	PO-6	PO-7	PO-8	PO-9	PO-10	PO-11	PO-12	PSO-1	PSO-2
PEO 1	3	3	3	3									3	3
PEO 2						3	3	3	3	3	3		2	2
PEO 3									3	3		3	2	2

1-Slight**, 2-** Moderate**, 3-** Substantial

2302204 - CONTROL SYSTEMS LAB							
(Only for EEE)							
Programme & Branch	**B.Tech - EEE**	**Sem**	**Category**	**L**	**T**	**P**	**Credit**
Prerequisites	**Control Systems**	**4**	**Professional Core**	**0**	**0**	**3**	**1.5**
Preamble	The significance of the control systems laboratory, is renowned in the various fields of engineering applications. For an electrical engineer, it is obligatory to have the practical ideas about the control systems and its applications in real world.						

List of Experiments: (Any 10 of the following experiments are to be conducted)	
1	Analysis of First order system in time domain (For Step, Ramp Inputs)
2	Analysis of Second order system in time domain (For Step, Ramp Inputs)
3	Effect of P, PD, PI, PID Controller on a second order systems
4	Lag Compensation - Magnitude and phase plot.
5	Lead Compensation - Magnitude and phase plot
6	Transfer function of DC Motor
7	Stability analysis of Linear Time Invariant system using Root Locus Technique (MATLAB)
8	Stability analysis of Linear Time Invariant system using Bode Plot Technique (MATLAB)
9	Stability analysis of Linear Time Invariant system using Nyquist Plot Technique (MATLAB)
10	Kalman's test of controllability and Observability using MATLAB
11	Characteristics of AC Servomotor
12	State space model for classical transfer function using MATLAB.
13	Characteristics of Magnetic Amplifiers
14	Implementation of different logic gates using PLC.
15	Characteristics of synchro transmitter and receivers
16	Characteristics of DC Servomotor.
	Total: 30hrs

1	**Text Book:** 1. Modern Control Engineering by Kotsuhiko Ogata, Prentice Hall of India, 5th edition, 2015 2. Automatic control systems by Benjamin C.Kuo, Prentice Hall of India, 9th Edition,2014.
2	**Laboratory Manual:** Control Systems Lab Manual

Course Outcomes: On completion of the course, the student will be able to		**BT Mapped** (Highest Level)
CO 1	Analyze the time response of system (first order and second order system).	L3
CO 2	Analyze PID controllers and compensators	L3
CO 3	Determine the transfer function of D.C Motor	L3
CO 4	Judge the stability in time and frequency domain and Kalman's test for controllability and observability.	L3
CO 5	Characteristics of various practical applications and determine the state space analysis concepts to represent physical systems as state models in MATLAB	L3

Mapping of COs with POs and PSOs

COs/POs	**PO-1**	**PO-2**	**PO-3**	**PO-4**	**PO-5**	**PO-6**	**PO-7**	**PO-8**	**PO-9**	**PO-10**	**PO-11**	**PO-12**	**PSO-1**	**PSO-2**
